SÁNDOR DARÓCZI

Address
Guerickestr. 19, 80805 Munich

Phone
+4915170030372

Email
daroczisandor00@gmail.com

Nationality
Hungarian

Date and Place of Birth
27.03.2000 in Nyíregyháza, Hungary

TECHNICAL SKILLS

Programming Languages
Python, R, Java, C++

Data Analysis & Machine Learning
Pandas, scikit-learn, PyTorch, NetworkX

Data Visualization
Tableau, Power BI, Matplotlib

Version Control
Git

Cloud Services
AWS Lambda, Terraform, Databricks

Other tools
SQL, Docker, GitLab CI/CD, Flask, HTML

LANGUAGES

Hungarian: Native

English, German: Fluent

Russian, Chinese: Beginner

ABOUT ME

I am a passionate MSc Mathematics student with a strong background in Data Science, Machine Learning, and Deep Learning. Eager to embrace new challenges and technologies, with a keen interest in expanding skills in topics like Graph Neural Networks, Bioinformatics, and Modern Deep Learning Methods.

EDUCATION

Technical University of Munich — 2021 - Ongoing

MSc Mathematics in Operations Research

- Areas of focus: Machine and Deep Learning, Statistics, and Mathematical Optimization
- Weighted average grade: 1,2 (GPA: 3,8)
- DAAD Master's scholarship recipient for the academic year 2022/23
- Exchange semester at the National Taiwan University in Taipei, Taiwan

Eötvös Loránd University — 2018 - 2021

BSc Mathematics

- Areas of focus: Graph Theory, Probability Theory, and Operations Research
- Weighted average grade: 4.96/5.00 (GPA: 3,9)
- Received a research scholarship for conducting research in Graph Theory

WORK EXPERIENCE

Rohde & Schwarz GmbH & Co. KG. — Feb 2024 - Ongoing

Working Student in AI

- Developing cutting-edge AI technologies in Python for applications in Air Traffic Control

Lidl Stiftung & Co. KG — Oct 2022 - Mar 2023

Working Student in Data Science

- Worked as part of the Lidl Analytics team developing novel machine learning solutions for challenging uncertainty estimation problems in demand forecasting and price estimation
- Implemented and evaluated 8 state-of-the-art ML and DL models using Python (Pytorch)
- Integrated the code into the existing code infrastructure in Databricks, scaling for over 11,900 Lidl stores across 30+ countries

Spryfox GmbH — Apr 2022 - Sep 2022

Data Science Intern

- Developed Python code for a ML model architecture for long-term health risk prediction
- Trained, tuned and evaluated a list of promising state-of-the-art models using scikit-learn, Pandas, and Matplotlib, resulting in a 5% overall increase in model accuracy
- Developed and debugged code for an AWS web crawler application using Terraform

HOBBIES

Running
Training three times a week for my first marathon this Autumn.

Learning languages
Achieved fluent German and conversational level Russian, currently learning Mandarin Chinese.

Classical music
Playing the violin for 12 years and learning the piano for 5 years.

Reading classic literature
My (current) favorite book is Fyodor Dostoevsky's 'The Brothers Karamazov.'

PERSONAL DEVELOPMENT

Private Math Tutor
- Tutoring university and high school students in Mathematics and improving their performance through tailored lesson plans (3h/week)

Former Exchange Student
- Studied Computer Science at the best university in Taiwan for a semester
- Gained invaluable intercultural experience
- Completed an HSK 2-level Chinese intensive language class with the highest grade (6+4 hours a week)

Event Organizer
- Organizing weekly events and trips for incoming Erasmus students within the ESN TUMi organization (3h/week)

Self-Taught Developer
- Learned about machine learning, deep learning, and backend development out of personal interest
- Developed games and fun visual projects using Processing, a Java-based language

Munich, 21.02.2024
